

NEXLINK® VALUE 1250 DESKTOP SERIES

Solution for Value Conscious Business Users

Do extraordinary things with a Nexlink® 1250 Series Desktop based on the 4th generation Intel® Core™ processor family or the 4th generation Intel® Pentium® processor. Expand your computing options with superior, energy-efficient performance that lets you create, share, and experience more than ever before.

BUILT FOR BUSINESS

The Nexlink 1250 Series provides all the essential features necessary for value conscious business users. With a choice of form factors designed to meet a wide range of environments, the 1250 Series can fulfill your computing needs from basic office computing to multimedia playback.

PERFORMANCE AND VALUE

The 1250 Series is designed to give Small-Medium business users a range of performance options from entry level Intel Pentium processors to powerful workhorses like the 4th generation Intel® Core™ i7 processor. Providing good performance and flexibility for day to day business use such as Microsoft Office® or internet browsing, the 1250 series is the ideal tool to perform everyday tasks.

» 5X Protection

Business users require reliable systems get real work done. The 1250 Series helps deliver steadfast reliability with 5X Protection. Stable power control, overcurrent protection, static electricity guards, high quality solid capacitors and a stainless steel back I/O panel provide the best possible reliability and durability.

» Dual Display

Increase business productivity up to 30% by adding a second screen. The 1250 Series supports dual independent displays with HDMI/DVI and D-sub connections enabling business users to maintain legacy displays and integrate newer displays.
